QUALITY OF LIFE SERVICES

# Sodexo's Quality of Life Services to improve on-board infrastructure

## A RENEWAL UNLIKE ANY OTHER

efficiency@sea is our offshore refurbishment solution to optimize the limited space on-board while improving amenities such as cabin acoustics, recreation facilities, galley upgrade and mess design. The latest safety features are incorporated into your facilities to ensure compliance with industry safety standards.

Sodexo's 40 plus years of global experience serving Oil & Gas employees offshore, coupled with dedicated surveys led by our Consumer Research Department, point to the need for on-board infrastructure improvements.

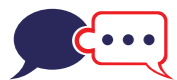

Employees have increasingly demanding expectations for comfort and privacy on-board. The living environment you offer them is crucial to attract, retain and engage top talents.

Most importantly, efficiency@sea guarantees your business continuity because refurbishment is carried out offshore without interruption to your operations.

## SODEXO'S TURNKEY SOLUTION

Sodexo is your single point of contact providing advisory, design and project management; ensuring smooth implementation and ease of management.

### CONSULTANCY & DESIGN

We conduct both client and end-user surveys to **understand your needs and expectations** ensuring that designs are tailored to meet the unique needs of your installation or vessel. Our designs for welfare facilities are based on **NORSOK** and other industry standards.

### PROJECT MANAGEMENT

Our dedicated team works with you to execute projects within your specified timeframe, manage project budget and quality control, and minimize inconvenience to your crew and operations.

## YOUR BENEFITS

### GROWING EMPLOYEE SATISFACTION

Enhanced comfort and warmer atmosphere boost morale on-board and impact employee motivation.

### IMPROVED EMPLOYER IMAGE

State-of-the-art facilities reflect your compelling high standards which attract and retain staff.

### BUSINESS CONTINUITY ASSURED

With uninterrupted uptime, your bottom line is secured.

### HIGH HEALTH AND SAFETY STANDARDS

The ergonomic design of your refurbished facility will contribute to unblemished safety records and the upgraded comfort keeps your employees alert and focused.

## REFURBISHMENT EXAMPLE

### CLIENT'S CHALLENGES

- Continual water leaks in accommodation cabins posed health and safety issues
- Compromised safety standards in the mess
- Lacking social facilities

### SODEXO'S SOLUTION

- Modernised 52 cabins, including shower rooms
- Replaced the entire piping system
- Redesigned mess for improved safety
- New social amenities for the crew such as smoking and non-smoking TV rooms
- Creation of a quiet area for personal time

### CLIENT'S BENEFITS

- No disruption to drilling operations while refurbishment work was carried out
- Safer working and living environments
- Boost in crews' morale
- Greater social interaction amongst the crew
